

# Kindergarten GVCs

GVCs, or Guaranteed Viable Curriculum, are those learning objectives that we believe are most important for students to know and be able to do by the end of the kindergarten year. Regardless of which teacher your child has, we guarantee these developmentally appropriate, yet challenging objectives will be taught in a way that is accessible to all students.

Each kindergarten student will be able to read at least 20 kindergarten sight words by the end of the school year.

Each kindergarten student will be able to write sentences with spaces, punctuation and capitalization by the end of the school year.

Each kindergarten student will be able to count objects (0-20) and write the corresponding number by the end of the school year.
